

Project Rachel

A Post Abortion Program

God's Love Heals

ANNOUNCING...

Project Rachel Webinar Series

If you, or someone you know is hurting after an abortion, resolving the grief and pain is often difficult. This first segment of the series will introduce you to the post abortion healing ministry of Project Rachel with the goal of also raising initial awareness of the kinds of needs presented.

You will be invited to submit questions or comments that may be used to guide the direction of future segments.

Whether you have been directly touched by abortion or not, someone you know (whether you know it or not) most likely has been affected by abortion either directly or indirectly. This is an opportunity to learn and to move toward healing.
